Custom Plastic Bag Enquiry Form

All plastic bags are custom made and printed to your specification. Our minimum quantity is 2,000 plastic bags for most bag types and the main factors that affect price are:

1. **Size & Thickness** – Thickness is measured in Microns - Amount of material used to produce the product
2. **Master-batch** – Amount of colouring used in plastic – 3% Standard (only a marginal price factor)
3. **Quantity** – The higher the volume, the cheaper the rate (A big factor)
4. **Number of print colours, sides & % of print coverage** – Process print (full colour) most expensive
5. **Plastic Types & Bag / Handle Types**

Below is the information we required when placing an order:

PLASTIC TYPE

LDPE HDPE PP PVC Other _____

EPI / Degradable Plastic Required

Plastic Colour _____ Master-batch _____ %

Plastic Thickness _____ Microns (μm) - Call for more info

BAG / HANDLE TYPE – (See website for more details)
